- = Excellent focusing
- = Acceptable focusing
Split-image rangefinder, microprism or cross-hair area is dim; focus on the surrounding matte area.
- = Acceptable focusing
Slight vignetting or moire phenomenon affects screen image, but film image shows no traces of this.
- Yellow = Exposure measurement via full-aperture method (AI-type camera only)
- Green = Exposure measurement via stop-down method

- Grey box = Exposure measurement is not possible; lens/screen combination permits focusing operation only.
- () = Indicates degree of exposure compensation.
- Blank means not usable.

When using Nikon AI camera bodies other than F3- and F2-series cameras (e.g., Nikon FA, FE2, FM2 and FE), refer to the F3-series chart. For the K2, B2 and E2 focusing screens, refer to the columns on the K, B and E screens. For details, also refer to your focusing screen's instruction manual.
